RESPONSE TO NOTICE OF INCOMPLETE REPLY

Mail Stop Missing Parts
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

To the Commissioner:

In the Notice to File Missing Parts dated March 18, 2004, it was indicated that replacement drawings in compliance with 37 CFR 1.84 and 37 CFR 1.121 were required. In particular it was indicated that the "drawings have a line quality that is too light too be reproduced" or "text that is illegible." Applicants were directed to [s]ee Figure(s) 3B, 6A-6D, 11A-11M, 13A-F, 15A-15B, 16A, 17 & 18.

Replacement drawings were submitted on June 17, 2004.

In the Notice of Incomplete Reply dated July 26, 2004, applicants were informed that the replacement drawings do not comply with 37 CFR 1.84 and 37 CFR 1.121. In particular it was indicated that the "drawings have a line quality that is too light too be reproduced" or "text that is illegible." Applicants were directed to [s]ee Figure(s) 4, 6B, 11A-11F, 11J-11K, 13A-D, 14, 15A-15B, 16A, 16C, 16E-16F, 17 & 18.

None of the drawings listed in the Notice of Incomplete Reply appear to have "a line quality that is too light to be reproduced" or "text that is illegible." To gain an understanding of the basis of the rejection, contact was made with personnel at the Initial Patent Examination Division including Marian Hines and others; Jill Warden of Group Art Unit 1743, due to the nature of the technology disclosed in the application; and Son Lam, a draftsman in the Office of Patent Publications. Based on discussions with them, apparently some of the photographs included in the drawings did not scan well.

In response to the Notice of Incomplete Reply, enclosed herewith is a set of replacement drawings identified as Set A (included with other identifying indicia at the top of each sheet) with enhanced photographs. The objects shown in the photographs included in Set A, which replace those identified in the Notice of Incomplete Reply, are clearly identifiable and remain so after the photographs are scanned. However, the original drawings and the replacement drawings submitted on June 17, 2004 also appear clear. To avoid further complications, applicants have also included another set of replacement drawings identified as Set B which include drawings to replace the photographs listed in the Notice of Incomplete Reply. Please review the replacement sheets in Set A and try to use those sheets. If any replacement sheet in Set A is still unacceptable, please use a sheet from Set B instead.

It is difficult to depict the nanotechnology disclosed in the present application without reliance on photographs. While the photographs in Set A may be replaced with the drawings in Set B so that the drawings are more easily scanned, the photographs provide a more insightful depiction. Accordingly, as requested above, and in accordance with 37 CFR 1.84(b)(1), it is respectfully requested that sheets in Set B be utilized only if the corresponding sheet in Set A is unacceptable.

Also, if it would help to receive the digital images of the sheets in Set A, applicants would be pleased to forward them.

PTO-Form 2038 charging the amount of \$740 for fees associated with a Petition for a Four-Month Extension of Time required in this matter is enclosed. Please credit any overpayment or charge any additional fees to Deposit Account No. 50-2375 of the undersigned. Duplicate copies of this sheet are enclosed.

Please address all future correspondence in connection with the above-identified patent application to the attention of the undersigned.

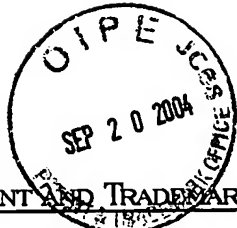

Respectfully Submitted,

A handwritten signature in black ink that reads "Kevin B. Laurence". The signature is written in a cursive style with a large, stylized "K" and "L".
